

## Go for the kill. Reach for the red pump.

Powerful broad-spectrum antimicrobial disinfection

Gently moisturizes with Aloe Vera

Nourishes skin with Vitamin E

Colorless, with no sticky residue, dyes, or fragrance

New AMEKINA hand sanitizers with the red pump deliver broad-spectrum pathogen kill rates, using a 70% ethyl alcohol solution that exceeds CDC recommended guidelines.

## Angelini Pharma: 100 Years of Excellence in Infection Control.

For over a century, Angelini Pharma has been at the forefront in providing infection control solutions. We are proud to introduce the latest offering in our line of exceptional disinfection products: **New AMEKINA Hand Sanitizers, that are effective, gentle, and easily accessible in multiple forms and manufactured in the USA.**

AMEKINA Hand Sanitizers feature powerful broad-spectrum antimicrobial disinfection with laboratory testing showing they provide a 99.9999% kill rate against a broad variety of pathogens, like *Escherichia coli* (*E. coli*) and *Methicillin-resistant Staphylococcus aureus* (*MRSA*) among others.

AMEKINA Hand Sanitizers gently moisturize and nourish skin with Aloe Vera and Vitamin E. Colorless, with no sticky residue, dyes or fragrances, leaving clinicians' hands feeling smooth and silky.
